2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2024-25 School Description and Mission Statement

The only charter school within Moorpark Unified, IvyTech Charter offers a Traditional Independent Study (TIS) and a flex-based Structured Independent Study (SIS) program to middle and high school students seeking an alternative to the traditional school setting. Additionally, IvyTech offers students dual enrollment opportunities within the local community college district (Moorpark CC, Ventura CC, Oxnard CC, and Pierce CC). This opportunity allows students to concurrently enroll in college coursework as they complete the coursework necessary for high school graduation. The school also provides access to 11 Career Technical Education Pathways. Each of which provides professionally recognized certifications.

2024-25 School Description and Mission Statement

IvyTech provides a robust Independent Study program that is personalized, flexible, and well-supported. The school provides access to instructional materials through digital Learning Management Systems that facilitate remote work 24/7, as long as students have internet access. The school further supports independent students with the option of bi-weekly check-ins with instructors and dedicated office hours to offer one-on-one/small group remediation. The school has also invested in infrastructure to allow remote learners to "Zoom" into live classes to virtually and synchronously participate with onsite learning cohorts. All students have access to Paper.co tutors, which can be accessed for help in all subject areas 24/7, during the regular school year.

As an independent study school, IvyTech has always incorporated an onsite component to provide a blended structure and support for online courses. The onsite structured support program was designed to help supplement A-G independent study courses by providing hands-on labs for science, real-world applications of engineering and mathematics, as well as a global context from which to launch inquiries and investigations. This onsite component has been transitioned into learning cohorts that allow all learners, but especially students with special needs to have access to regular onsite, in-person, structured instruction.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

IvyTech Charter School is a non-classroom-based school. However, because our program is based on a personalized learning philosophy, we provide options to support our students' learning with our structured-support option. Over the years, ITCS has improved our facilities to meet our programmatic needs, including new and expanded learning areas, room for meetings, improved science facilities, and outdoor space. In general, stakeholder feedback indicates a high level of satisfaction with the quality, safety, and cleanliness of all ITCS facilities. The school invited the parent representative of the ITCS School Board to complete a Facilities Inspection Tour in preparation for a visitation from a member of the Ventura County Office of Education. The VCOE representative completed an official FIT report as part of the monitoring and compliance component of the Williams Decision.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

Mathematics (grades 3-8 and 11)	11	24	42	43	34	35

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. 2023-24 Career Technical Education Programs

IvyTech has piloted a new CTE program utilizing the digital LMS and Instructor Services from eDynamic Learning. Students progress through curriculum independently and have regular meetings with the credentialed instructor overseeing the course. The LEA primary representative for all matters relating to CTE is the school's principal, Adreanna Diaz.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

IvyTech engages parents with quarterly newsletters, Back-To-School, and FAFSA information nights to provide the learning community with information on the school's progress and opportunities for students. ITCS utilizes surveys, Dinner With The Directors nights, and Zoom calls to provide opportunities for parents to voice concerns, put forth ideas for future school growth, and to communicate about the school as it navigates through ever-evolving circumstances. Parents are invited to participate in regular board meetings which are held at the school-site. The school's head of student services, Adreanna Diaz (805-222-5188) is the key coordinator for all parent interactions.

2024-25 School Safety Plan

IvyTech School is a Non-Classroom-Based, Independent Study school. During the times and days that students attend our site, they are provided with school IDs and are checked in/out as they enter/exit the campus. We are not a traditional school site, however, we do conduct fire/earthquake procedures on pre-schedule days during the year. No room is left unsupervised.

2024-25 School Safety Plan

The Comprehensive School Safety Plan is annually reviewed by June 15th by the school's Director of Operations. At this time, the plan is discussed with all members of the administration to identify improvement needs in either policy or facility. An improvement plan is developed for the coming school year. The latest version of the school's CSSP was officially updated by January 2025 and received approval from the ITCS School Board in February 2025.

The school's administration regularly meets with staff members to review the School Safety Plan and to ensure that all resources and expectations are in place prior to the event of an emergency.

Fire drill and exit maps have been reviewed with students and staff and posted on campus in each classroom. Classroom kits have been stationed in each learning space and staff members have been trained on procedures for handling emergency, first-aid, and trauma situations. The Student Handbook is updated, and reviewed by the Principal annually to reflect changes in policy and procedure. Policies including health and safety, as well as rules and procedures on school discipline are reviewed at staff meetings.

IvyTech's CSSP covers all required elements as outlined by Education Code Sections 32280-32289.5

Fiscal Year 2023-24 Types of Services Funded

The size of IvyTech Charter affords the opportunity for the school's administration to get to know each student and for our staff to work as a team for the support of our students. We have cross-curricular conversations about student challenges or successes and meet with counseling/administration to make further changes or amendments. Students have a unique learning plan developed for them that will help them both to earn a high school diploma and achieve career and college readiness. To accomplish this, students are empowered to pick a pathway that supports Career Technical Education, Dual Enrollment at local community colleges all while completing A-G approved courses.

The school's blended learning model which fosters individual coaching/instruction, allows for teachers to employ strategies to support students in their academic development. These one-on-one relationships afford teachers the opportunity to see how curriculums can be amended to promote student inclusion and progress. The blended learning model's online component, too, allows for individual coaching as teachers provide feedback and suggestions for re-submission of work. At any point, teachers have the opportunity to adjust curriculums for student inclusion and progress. To further the support of individual students, the school provides each student with 24/7, chat-based tutoring in all subject areas through Paper Tutoring.

The school facilitates a meal program which offers all students a free lunch from one of the local eateries and provides breakfasts for socioeconomically disadvantaged students. Additionally, to support these student, the school provides families with the opportunity to check-out a computer and internet hotspot for home usage.
